

如何绑定运营商宽带帐号

在信息门户中--服务大厅--绑定运营商。

填写运营商宽带帐号

The form is titled '绑定运营商' (Bind Operator). It has three rows for different operators: '中国电信' (China Telecom), '中国联通' (China Unicom), and '中国移动' (China Mobile). Each row contains a '帐号' (Account) field, a '宽带帐号' (Broadband Account) field, and a '密码' (Password) field. A red arrow points to the '绑定运营商' title. A blue '绑定' (Bind) button is located at the bottom. Callout bubbles with numbers 1, 2, and 3 point to the '宽带帐号' fields for China Telecom, China Unicom, and China Mobile respectively.

登录时选择对应绑定的运营商

The login interface is titled '统一身份认证方式登录' (Unified Identity Authentication Login). It features a dropdown menu for '选择网络类型' (Select Network Type) with '中国电信' (China Telecom) selected. A red box highlights this dropdown, and a callout bubble with the number '1' and the text '对应绑定的宽带' (Corresponding bound broadband) points to it. There is a red '其他方式登录' (Other login methods) button and two input fields for '学号/工号' (Student/Employee ID) and '密码' (Password).
