

如何修改信息门户的密码或找回密码

进入信息门户，点击“个人信息” - “用户设置”

The screenshot shows the 'User Settings' page for password modification. The page is titled '我的资料' (My Profile) and '步骤二' (Step 2) '密码' (Password). The main content area contains three input fields: '当前密码' (Current Password), '新密码' (New Password), and '确认密码' (Confirm Password). Below these fields is a green '确认修改' (Confirm Modification) button. A red arrow points to the '个人信息' (Personal Information) dropdown menu in the top right corner, and another red arrow points to the '密码' (Password) tab. A text box on the right side of the page reads: '如果您忘记了原密码,请移步统一身份认证系统,并退出当前用户后使用“忘记密码”功能!' (If you forgot your original password, please go to the unified authentication system, log out of the current user, and use the 'Forgot Password' function!).

找回密码

The screenshot shows the password recovery process. On the left, the login page has a '找回密码' (Forgot Password) link highlighted with a red box. A red arrow points to the '统一身份认证帐号' (Unified Authentication Account) input field. On the right, the '找回密码/密码重置' (Forgot Password/Reset Password) page is shown. It contains several input fields: '18位身份证号码' (18-digit ID card number), '激活帐号时预留的手机号码' (Mobile phone number reserved when activating the account), '短信验证码' (SMS verification code), '密码' (Password), and '确认密码' (Confirm Password). A '获取验证码' (Get Verification Code) button is next to the SMS verification code field. A '确认找回' (Confirm Recovery) button is at the bottom. The page also includes a '返回' (Return) link and the university's logo and name.
